Challenge-1

Elise Wong

2023-08-14

Hi there!

My name is **Elise** (I'm also known by Madeleine - that's my first name). I'm currently pursuing my undergraduate degree in *Communications and New Media* at the National University of Singapore.

I've always been fascinated by, and not to mention passionate about, anything that allows for qualitative analysis, (some) creative freedom, and the English language. Additionally, to remain *open-minded* and *curious* in all aspects of life — both inside and outside of a professional environment — is the cornerstone of my personal philosophy. I believe that every experience, regardless of outcome, is an opportunity to further my learnings and insights, and maintaining such an outlook is the formula for excellence in every endeavour of mine.

In short, I'm thrilled to begin my journey in NM2207 to explore the more technical components of Communications and New Media. The ever-evolving landscape of digital technology is truly an exciting phenomena to behold, and I can't wait to delve into this field at a deeper level. I anticipate a stimulating hands-on learning experience that will equip me with the skills needed to navigate the intricacies of engaging with large-scale data, and to learn to complete statistical analyses.

And, just for fun, here's a picture of me:

```

I play the electric guitar!

And here's my R Studio layout, as per Step 4.6.

```
knitr::include_graphics("/Users/madeliew/Desktop/NM2207/Week-1/image_2023-08-14_19-48-14.png")
